ELS200 Pro Auto Test Lead Kit

ELS200 Pro Auto Test Lead Kit includes our premium set of interchangeable specialty test probes. The interconnect lead set features an extended length of 64 inches. Kit also includes a quality set of cable/wire piercing clips and large Crocodile Clips for clipping to grounds and battery terminals. In addition, the four back probes/wire piercers are great for sliding into automotive connectors like those on fuel injectors and MAP sensors. Includes quad fold storage pouch to keep your leads organized. Compatible with most DMM's & scopes.

Includes:

- One set of Interconnect Leads - 64 inches length
- Extra Sharp Test Probes
- Cable/wire Piercing Clips
- Crocodile Clips
- Four Back Probes/Wire Piercers
- Quad Fold Storage Pouch

Applications:
*Automotive
Heavy Duty
Industrial
HVAC
Electrical
Marine*
